Oil Price! Domestic Challenges and E & P Strategies

The Pakistan Association of Petroleum Geoscientists (PAPG) and society of Petroleum Engineers (SPE-Pakistan) are jointly organizing Annual Technical Conference on November 22-23, 2016 at Serena Hotel, Islamabad.

The theme for this year's event is **"Oil Price! Domestic Challenges and E & P Strategies"**. The Conference will provide information about latest technologies used in the exploration and exploitation of conventional and unconventional hydrocarbon resources in Pakistan. This time we are expecting over 1000 registered delegates from Pakistan and abroad. This event will host over 36 professional presentations and 24 student presentations along with panel discussion on the theme of the conference.

It's indeed a privilege for us to invite you to join this memorable event. Your active participation in the conference will be a great source of encouragement for the participants and shall build more confidence towards the ongoing & future investments in the E & P Sector.

The Organizing committee looks forward to your early registration for the conference.

Online Registration:

ATC-2016 Online Registration at:

goo.gl/IDs175

OR registrations.papg.org.pk/reg/registration.aspx

PAPG/SPE members and Non Members ATC delegates can now register online and generate their payment invoices from confirmation page as soon as Send Registration button is clicked. The E & P and Services companies who want to send multiple nominations may register their delegates by selecting Group Registration types then follow the form flow.
